PermaLife POUR&PLAY™

FOR LONG LASTING COMMERCIAL PLAYGROUND APPLICATIONS.

You're looking at a ground-breaking way of protecting our most important natural resource. Our Kids! Protecting them from playground bumps and bruises by cushioning their falls with an environmentally friendly safety surface which is a colorful, clean alternative to sand and wood mulch.

PermaLife POUR&PLAY comes from tires that have been granulated, cleaned and recycled especially for playground use, it acts like sand but feels much softer on little knees.

And, unlike other safety surfaces, PermaLife POUR&PLAY holds its vibrant color and lasts for years.

So, for greater safety for your kids, whether at the park, or at school, pour it on with PermaLife POUR&PLAY.

To talk to one of our specialist call 1-866-737-6254.

PermaLife POUR&PLAY™

IT ALL STARTS WITH TIRED OLD TIRES

COLLECTION RECYCLING

PermaLife POUR&PLAY begins as used tires which are collected from tire dealers. About 300 million of these scrap tires are retired in North America each year. Tires collected by PermaLife undergo a commercial process which separates the rubber from the metal wire.

CLEANING COLORING

Once the rubber has been recovered it undergoes an additional process which insures the removal of the remaining impurities. PermaLife POUR&PLAY is then finished in six vibrant colors (special order colors are available), which are non-toxic, non staining, long lasting, and fade resistant.

LOCAL DELIVERY SERVICE

Delivery of PermaLife POUR&PLAY will be made to your driveway, either in 50 pound bags, or in bulk in easy-to-open super sacks which can contain 1,000 or 2,000 lbs. Smaller orders are sent UPS, while larger orders (over 750 lbs.) are delivered by one of our fleet of specially made "Moflett" trucks, which can deliver the mulch direct to your property.

PLAYGROUND SAFETY & BEAUTY

PermaLife POUR&PLAY is fast becoming the choice for playground safety. Use PermaLife POUR&PLAY to replace ordinary sand or wood mulch. It retards weed growth, enhancing the beauty and vibrancy of the playground. Five-year color warranty against total color loss.

SPECIFICATIONS

In the interest of playground safety, IPEMA provides a Third Party Certification Service whereby a designated independent laboratory validates a surfacing manufacturer's certification of conformance to ASTM F1292, Standard Specification for Impact Attenuation Under and Around Playground Equipment. The use of the corresponding logos in PermaLife's Products, LLC signifies that PermaLife Products, LLC has received written validation from the independent laboratory that the product associated with the use of the logo conforms to the requirements of the indicated standard. Check the IPEMA website (www.ipema.org) to confirm product certification as thickness and critical height.
